THE SEAT THAT GIVES CHILDREN INDEPENDENCE

A highlight in the DRIVING line is the CONCORD ABSORBER XT child car seat for Seat Group I. Equipped with double-layer safety shells and Isofix system, it offers a high level of travel safety. The height and width of the headrest are adjustable. An additional point in its favour is its very comfortable reclining position with extendible leg rests and a long backrest. CONCORD has also come up with new ideas for the seat design: a step and recessed grips enable children to climb in and out of the seat unaided. This means less work for parents – especially during short trips to town involving lots of stops.

Dimensions: **L 57 x W 42 x H 98 cm**
