REVERSO.PLUS

i-Size / Height: up to **105 cm** / Weight: up to **23 kg** / Age: approx. **4 years**

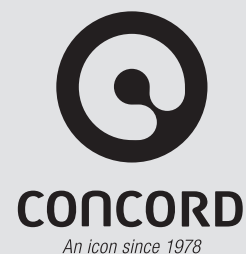

**THE REBOARD
INNOVATION:
EXTREMELY SAFE,
EXTRA LIGHT**

The CONCORD REVERSO impresses thanks to its broad range of applications. Thanks to the separately cushioned newborn inlay, the seat is a fully fledged cradle for ages up to three to five months. Thereafter, without the inlay, it is suitable for children up to a height of 105 cm. In terms of handling, the CONCORD REVERSO is far ahead of other Reboard seats. The convenient rotating wheels allow the leg supports and, in particular, the angle of sitting or lying to be adjusted. This can even be done comfortably from the driver's seat. As a rule, all the adjustments can be made from all sides and are marked with clear, mechanical red-green indicators, as is the Isofix mounting. In general, the CONCORD REVERSO represents a new generation of Reboard seats. Its clear, tidy design is a visualisation of the new technology. A circular lightweight aluminium protection frame with an internal multifunctional shell, made entirely from shock-absorbing material, offers maximum protection with minimal weight. With the inlay for newborns inserted, the CONCORD REVERSO weighs 10.9 kg – without the inlay it even weighs in at under 10 kg (9.9 kg).

Dimensions: **L 80 x W 44 x H 46 cm** / Support leg: **76 - 100 cm**

- **THE REBOARD INNOVATION**
Extremely safe, extra light: 10.9 kg with newborn inlay, only 9.9 kg without inlay
- **Fulfills the new European i-Size standard** and provides the highest standards of safety with minimal weight
- **NEWBORN INLAY** the seat is a fully fledged cradle for ages up to three to five months.
- **Extremely easy to handle** and suitable for children from birth to a height of 105 cm.
- **PURE USER COMFORT**
Easy adjustment of the seat size or lying position via always accessible rotating wheels
- **COMFORTABLE CONDITIONS**
Particularly large louvres in the rear seat area for optimal air circulation
- **LIGHT WEIGHT PROTECTION FRAME** Maximum safety with minimal weight thanks to aluminium frames and multifunctional inner shell
- **AUTOMATIC INSTALLATION ASSISTANCE** Cushioned foot plate with automatic adjustment to the vehicle seat
