## THE URBAN SYSTEM BUGGY

How light, how small, how high, how flat – the new CONCORD SOUL Urban Smart Buggy is unbeatably practical and versatile. The CONCORD SOUL is also fully system compatible from the outset: with our AIR.SAFE (baby car seat), SLEEPER 2.0 (carrycot) and cosy SCOUT (folding carrycot), parents and children are perfectly equipped from day one for excursions by foot or by car. Our customers are at home in the city: at their favourite café, down at the park, or in the bookshop around the corner. They ride on trains, they like to walk to the shops and meet up at their favourite playgrounds. The intelligent CONCORD SOUL is perfectly designed for all of these activities. It accompanies parents and their newborn city-dwellers tirelessly from the outset and is equipped for every eventuality. But if you do decide to take the car, it's not a problem. The SOUL is compact already, and it can be divided into its frame and seat and will fit into even the smallest boot.

- Strong silicone handle, particularly tough and comfy to hold
- Height-adjustable arm, telescopically adjustable to any size
- Fully adjustable back rest: sitting upright, reclined, or completely flat
- Very large luggage rack: considerable storage space
- Parking brake, easy to operate by foot
- Elastomer suspension absorbs vibrations and smooth out bumps
- Big canopy, folds out a long way, triple adjustable and removable
- 5-point belt system including child lock
- Comfortable leg rest which supports the legs, including in lying position
- Foot rest for safe and comfy sitting
- Lockable front wheels for riding straight and sure, or steering wherever you want to
- Robust tyres with excellent wear resistance and solid foam core
- Front wheel suspension for optimised ride comfort
- System compatible from birth onwards: easy to use with CONCORD SLEEPER, SCOUT and AIR.SAFE
- Seat can be used both in a forward and rear-facing position
- 53 cm track width, perfect road-holding, highly manoeuvrable
- Includes universal rain cover, which can also be used with SLEEPER 2.0 or SCOUT components
- Covers are easy to remove and washable
