GRADUAL ADJUSTMENT

Headrest height as well as shoulder protector height and width continuously and simultaneously adjustable at the touch of a button, pneumatically supported

GOOD AIR CIRCULATION

particularly in the lower part of the backrest

MAXIMUM SAFETY

thanks to excellent energy distribution, innovative cushioning materials and a perfect ergonomic belt geometry system

VARIOSIZE SYSTEM

the smart size adaptation system, coupled with the seat height adjustment facility, prevents incorrect product use when moving from Group I to Group II / III.

EASY ADJUSTMENT OF THE SEAT HEIGHT

from Group I to Group II / III using a handwheel. Coupled with smart size adaptation.

VARIO XT-5

**EVOLUTIONARY,
EASY TO INSTALL
AND SAFE**

An easy-to-operate seat with a smart size-adjustment facility to keep pace with your child's growth and a five-point harness system for Group I. The headrest, as well as the shoulder pads, automatically lock into place until the seat is set at its lowest level, indicating that a move from Group I to Group II / III is required.
